TECHNICAL SKILLS

Javascript, React, CSS, HTML5, Handlebars, Node.js, JQuery, Bootstrap, Express.js, MySQL, MongoDB, RESTful APIs, Github, MERN

PROJECTS

Zero Proof | https://github.com/kateleighb3/zero-proof | https://guarded-river-60488-2757545d4c45.herokuapp.com/
- Website that utilizes a database stored in MongoDB's Atlas, where logged in users can find and add non-alcoholic bars. Users log in using a web token that is stored in local storage.

The Comic Vault | https://github.com/SienkC/The_Comic_Vault | https://sienkc.github.io/The_Comic_Vault/index.html
- Website that utilizes two APIs to allow users to search comic related movies, TV shows, and characters to be recommended comic books to purchase. Issues can be saved in a favorites page using information stored in local storage.

Pixel Perfect Reviews | https://github.com/yanalejandro/Pixel-Perfect-Reviews |
https://aqueous-garden-21223-0843a25d5cd3.herokuapp.com/
- Website that utilizes a mySQL database and an API to allow users to search for games and write reviews. Logged in users can write comments on reviews and save favorites.
